

A MUST FOR YOUR GLOVE BOX!

Suggestions If You're In a Car Wreck

★ **Call It In – 911**

Always report a wreck to law enforcement. You will need the crash report.

★ **Take Pictures**

If you are able, and can do so safely, take pictures of the scene and vehicle damage.

★ **Don't Say "I'm Fine"**

Unless you know you are. Many times injuries are not apparent due to shock, confusion and adrenaline.

★ **Get Checked Out**

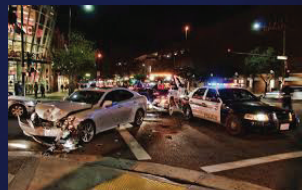

If you believe you are possibly injured, go to the nearest emergency room or contact your doctor immediately.

★ **Don't Apologize**

It's natural to say "I'm sorry" if you are embarrassed, surprised, or confused. You don't want those words to determine who is at fault.

★ **Make Notes**

License plate numbers, witness names and contact information and comments or statements made at the scene are very important.
